DETAILED ACTION

Status

Claims 1, 4-9, 12-19 are pending.

Response to Arguments

The Applicants arguments filed on July 17, 2006 have been fully considered.

The examiner submits that the embodiment of the claim invention is unclear and subsequently has rejected the claims under 2nd paragraph of 35 U.S.C. 112.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 9 18 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claimed invention cites many features such as "if said access condition is not referenced ... " These limitations recited by these claims are vague and indefinite by usage of the term "if", no limitation is imposed upon the claimed invention.

Applicant(s) are reminded that optional or conditional elements do not narrow the claims because they can always be omitted. See e.g. MPEP §2106 II C: "Language that suggest or makes optional but does not require steps to be performed or does not limit a claim to a particular structure does not limit the scope of a claim or claim limitation" As a matter of linguistic precision, optional elements do not narrow the claim because they can always be omitted.

Claims 4-8, 12-17 are dependant upon the above rejected claims and are rejected for at least the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
